4. Install the mirror holder in the reverse order of removal, and note these items:
 - Make sure the terminals are plugged in properly.
 - Push the mirror holder downward to lock in the hooks.

- Push in the bottom of the mirror fully before you push on the mirror holder.
- Check the operation of the actuator.

AUTOMATIC DIMMING REARVIEW MIRROR REPLACEMENT

Special Tools Required

KTC trim tool set SOJATP2014

NOTE:

- Use the appropriate tool from the KTC trim tool set to avoid damage when prying components.
- When prying with a flat-tip screwdriver, wrap it with protective tape to prevent damage.

1. If equipped, remove the rain sensor (see **CONTROL UNIT INPUT TEST**).
2. Remove the roof console, '03 model (see step 6 in **HEADLINER REMOVAL/INSTALLATION**), '04-06 models (see step 7 in **HEADLINER REMOVAL/INSTALLATION**).
3. Disconnect the connector (A), and carefully remove the bracket cover (B) by releasing the hooks (C). Take care not to scratch the cover and mirror bracket (D).
